Ali Al Hakeem

Full-Stack Software Engineer / UI/UX Developer

Denver, Colorado | 720-49- 8973 | Ali.B.AlHakim@gmail.com | [Github] | [Portfolio] | [LinkedIn]

Full-Stack Developer passionate about creative problem-solving. I have a keen eye for visual aesthetics and follow design principles, while developing and implementing applications and solutions using a range of technologies and programming languages such as JavaScript and Python. Seeking to leverage broad development experience and hands-on technical expertise in a challenging role as a Full-Stack Developer.

SKILLS: JavaScript, Typescript, Python, Django, Django Rest Framework, WordPress, Sass, CSS3, HTML5, Bootstrap, ReactJS, NodeJS, ExpressJS, MongoDB, VSCode, PostgreSQL, Git, Version Control, GitHub, Postman, RESTful API's, Mongoose, EJS, Responsive Design.

RELEVANT EXPERIENCE

Software Developer | Bitewell | June 2022 – Present
- Worked as part of a team to develop and maintain the company's application development using modern technologies such as JavaScript, Sass, Python, and Django.
- Collaborated with designers and other engineers to ensure that the applications were user-friendly and visually appealing.
- Contributed to the development of new features and enhancements according to business and technical specifications.
- Coordinated decomposition meetings, ticket scoring, and other team-related activities.
- Contributed to the development of technical documentation, ensuring that it was accurate and up-to-date.
- Collaborated with the QA team to ensure that all features and functionality were thoroughly tested before release.
- Helped troubleshoot and resolve issues identified during testing, working closely with the development team to ensure timely and effective resolution.

Software Engineering Immersive | General Assembly | Remote Part-time | September 2021 – April 2022
Completed 500+ hours of expert-led instruction in JavaScript, Python, MongoDB, Node, React, and hands-on learning of web and mobile application fundamentals using the industry's most in-demand technologies. Developed projects, including:
- **Online Shopping Portal** | [Github] | [Demo] - Built with ExpressJS, NodeJS, MongoDB and Mongoose Database, with EJS, Passport.
- **StackDevHelp** | [Github] | [Demo] - This is a friendly & simplified clone of StackOverflow built with ReactJS, NodeJS, ExpressJS, MongoDB, Mongoose, Styled-Components, and MaterialUI. Developed custom API with user authentication, reusable components including implementing React-Markdown. As a group, we collaborated on both front end and back end. I was responsible for the build of most of the back-end including REST API and schema design, and various front-end components.
- **Rental Booking Portal** | [Github] | [Demo] - The BNB.com is a Mern App built with ExpressJS, NodeJS, MongoDB and Mongoose Database, React, Multer Node Packages including integration with Cloudinary implementing their special images cropping and JSON Web Token.
- **Simon Game** | [Github] | [Demo] - Built with Vanilla JavaScript, HTML & CSS grid system – Designed and developed this fun game geared towards software engineers.

Route Sales Manager | Frito-lay | Denver | June 2018 – June 2022.
- Promoted from associate sales route agent role to a Specialist role, based on exemplary performance of my targeted sales goals.
- Delivered multiple training classes to new sales associates.
- Exceeded the targeted sales plan for all the fiscal years plans.
- Develop new leads in the field, monitor customer feedback, and handle problems experienced by clients
- Ensure on-time delivery, and communicate throughout the transaction, offering support when issues arise.
